He firmly believed that the future of Nigeria lies in its youth, and was concerned that the present generation of business and political leaders were not doing enough to nurture and support the country's youth.

The Ovie Brume Foundation was established in 2003 by his family to commemorate the memory of Ovie by supporting his commitment to Nigeria's development. At the core of the foundation is its Youth Centre, which provides young people with a wide range of recreational, social and educational opportunities, through which they are encouraged to develop positive attitudes; discover their own gifts and talents; recognize opportunities that are available to them, to reach higher levels of achievements in all their endeavours.

Our objective is to create a positive and safe environment where youths have access to a wide range of structured character building activities, meet appropriate role models, and obtain support and counseling at no cost to them.

OUR MISSION

The Ovie Brume Foundation is dedicated to creating an enabling environment for young people to reach their goals and give back to their communities.
