# OVIE BRUME FOUNDATION MUSIC CLASSES

**M**usic is an art and cultural activity whose medium is sound and silence.

Music is performed with a vast range of instruments and with vocal techniques ranging from singing to rapping, and there are solely instrumental pieces, solely vocal pieces (such as songs without instrumental accompaniment) and pieces that combine singing and instruments. 20th-century composer John Cage thought that any sound could be music, saying, for example, "there is no noise, only sound."

To this end, 25 Youth Centre members of the OVIE BRUME FOUNDATION, comprising of ten males and fifteen females received training in theory of music, mastery of voice and instrumental skill. A total of ten (10) members took part in the preliminary and five (5) in grade one theory of music examination at the Muson Centre. Various musical instruments ranging from piano, violin, auto saxophone, clarinet, trombone and guitar are available for the group

The OVIE BRUME FOUNDATION musical group are increasing in numbers and skills, gaining more recognition and competing with professionals in the school of music. Recently Jubril, one of our members, trained a visually impaired woman in Piano; Aborishade Mary currently is the Music Director in her church and Adeyemo Omotosho is the band controller in his church. He also receives invitation to attend various programmes.
